

Reference project

Simpson Spence & Young, Hong Kong, China
Architecture: M Moser Associates, Hong Kong

Simpson Spence & Young
Wyndham Street
Hong Kong
China

Completion date: 2010

Products:
temptation, match

As one of the largest freight and logistics companies for worldwide shipment by sea, Simpson Spence & Young built a branch in Hong Kong with around 30 workstations. Space-saving solutions were planned with the **temptation** office furniture system, which allows numerous configuration options with other desk elements along its straight sides.

The workstation configurations were implemented with the **temptation** system. **match** chairs were used as office swivel chairs. Photos: © Sedus
